

Ref. : 269455 **NEW**

CORDLESS ELECTRIC SUCTION CUP

Double lip.

Automatic on/off function : the pump stops when the required pressure is reached (-450 mmHg).

Automatic pressure regulation : if pressure drops below -350 mmHg, the pump switches on and draws vacuum again until -450 mmHg is reached.

Equipped with a gauge to check the pressure = safety and reliability.

Double-click ON/OFF button to release pressure and tab for easy removal.

Anti-slip handle.

For smooth and rough surfaces.

Carrying case and protective cover included.

CE certified.

SPECIFICATIONS

Diameter	198 mm
